We specialize in the development, implementation and maintenance of health and safety systems for: Aviation Industry, Building Construction, Roads and Earthworks, Sub Contractors, Offices, Schools, General Industry, Retail Stores, Warehouses, Hotels and Lodges.

The diagram illustrates the interconnected nature of six core services. The services are represented by 3D hexagonal blocks arranged in a circle, with arrows indicating a clockwise flow from one service to the next. The services are:

- SMS** (Safety Management System) - Orange block at the top.
- AUDITS** - Green block at the top-right.
- FIRE SAFETY** - Teal block at the right.
- HAZ INSTALATIONS** (Hazardous Installations) - Blue block at the bottom-right.
- SAFETY FILES & DOCUMENTON** (Safety Files & Documentation) - Purple block at the bottom-left.
- TRAINING** - Red block at the left.

Arrows connect the blocks in a continuous loop: SMS to AUDITS, AUDITS to FIRE SAFETY, FIRE SAFETY to HAZ INSTALATIONS, HAZ INSTALATIONS to SAFETY FILES & DOCUMENTON, SAFETY FILES & DOCUMENTON to TRAINING, and TRAINING back to SMS.

Audits

“Invest in quality audits”

Depending on the size of your company you may need a few different legal audits although we usually recommend a Gap Analysis in order to define the starting point.

The quality of compliance audits is only as good as the quality of the people performing the task. Only with expertise on hand and excellent reports, will you be able to move in on world-class quality.

AM RISK makes the following audit services available.

- ❖ Pre-assessments
- ❖ Internal audits
- ❖ External audits
- ❖ Gap analysis
- ❖ Legal registers

Safety Files

“From appointments to risk assessments”

The safety file is a record of information, prepared for the end user and site personnel, which focuses on safety and health. The information it contains will also alert those who are responsible of the significant safety and health risks that will need to be addressed during subsequent maintenance repair or other construction work.

AM RISK can assist you from the start to the final handover of the files / data books on project completion. AM Risk will also communicate with your client's SHE Department, ensuring a smooth process. This file will include everything you need, from appointments to risk assessments and everything to comply with the OHS Act.

AM RISK can also assist with booking medicals

Training

“If you don't train them, you can't blame them”

AM RISK is all about creating inspiring learning experiences for your employees. Its one thing to learn everything from a book but people learn and remember concepts rules and ideas far better when they are visually stimulated and involved with interactive training methods.

The aim is for each employee to walk out of our training center with a renewed mind, attitude and excitement to apply their newly found knowledge in the workplace. At AM RISK its necessary that we install the importance of creating value in individuals. When employees understand their values and how the contribute to a company and to the quality of their own lives, production increases workflow is done more smoothly and a general feeling of well being becomes the vital glue that helps a company grow and maintain a high level of service.

With AM RISK its all about visual communication and practical learning its our vision for employees to learn in new and exciting ways. We believe it's an essential part of education.

Our aim:

- ❖ Improve internal communication
- ❖ Improve health and safety awareness
- ❖ Improve employee morale

Invest in your employees and let AM RISK tailor design training for your employees based on your company's needs and budget.
